dotfiles

The dotfiles I am currently using on Arch Linux

Currently in use:

- xfce4
- i3 gaps
- pywal
- polybar
- vim
- rofi (launcher/window swapper)
- kitty (terminal)
- libinput-gestures
- tlp (power management)
- stow + git (dotfile management)
- fireshot (screenshots)
- ranger (file explorer)
- compton (compositor)
